INSTRUCTIONS

The attached cards pertain to the married children of Eirik and Anne Kjebekk. On these cards it is not necessary to fill in the place of birth or place of death for the children of Eirik and Anne Kjebekk. That will be filled in on another card.

If you have the information, it would nice if you could fill in the blanks pertaining to the spouses of the children of Eirik and Anne Kjebekk and then their children. From the information that I have received from you, I do have the first names of the spouses and the number of children that they had.

I have labeled the children "Child A,B etc". according to the number you gave us. The most that I would need at this point would be their names, sex, and birth dates. If you would like to, you may give me more information about these children and I will include it in the "Family Tree".

INSTRUCTIONS

The attached cards pertain to the parents of Anne and Eirik Kjebekk. If you have any of the information listed on the card, you can fill it in. At the bottom or on the reverse side of each page you can fill in any additional information that may be available for the parents of Anne and Eirik.

Some of the additional information may include occupation, interests, place of residence, religion, etc.

INSTRUCTIONS

The first card attached to this instruction sheet is the marriage card for Eirik and Anne Kjebekk. If you can, fill in the blanks for me. You can ignore the blanks that read "src" or "source". At this point I am not collecting birth certificates, death certificates, etc. as sources of my information.

The next several pages are personal cards on Eirik and Anne Kjebekk and their children. If you would, do the best you can in filling in the blanks.

The blanks that are preceded by the word "Event" or "Comment" are there to record significant events in the persons life. They might be baptism, travel, military service, schooling etc. As you can see I have filled in some of the blanks on Grandpa Erickson's card. I will be putting more in at a future time. You may have some information about him that would be important.
